About

Cassie/Cassandra Erin Szer, known professionally as “infinitereality,” is an Australian experimental musician, lyricist, sound engineer, composer, graphic/visual artist, and author. She co-founded Truth Field Projection PTY LTD., providing services in music, security, and technology support. In 2022, she authored the prototype of “Jailbreak the Universe,” a series of interconnected short stories that complement her musical compositions.

Collaborations

infinitereality has collaborated with [MICHAEL GARZA](#) since their initial disagreement regarding the vocal complexity of Radiohead's "Exit Music," their most notable collaboration has been the creation, writing, and production of "I REMEMBER" and its subsequent variations. Since then, he has been featured and co-produced on numerous releases, contributing background vocals and being credited as a featured performer.

She has also collaborated with [BRIAN MINNICK](#), In synchronous video and audio-related projects, MINNICK's distinctive audio elements are harmoniously integrated with infinitereality's musical compositions on multiple albums and EPs.

Services: Personalised Audio

infinitereality also provides audio soundscapes, scores and cues for all forms of media platforms including apps, games, podcasts, documentaries, short films, and television.

She has collaborated with numerous creators across these diverse fields.

For a demonstration of her capabilities, please refer to her ongoing work with the independent artist/creator [JOULES OPIA](#).
